Resource List

Federal and National Organizations

- **Centers for Disease Control and Prevention**
Cancer Prevention and Control
National Breast and Cervical Cancer Prevention
www.cdc.gov/cancer/nbccedp for more information about the program

- **Centers for Disease Control and Prevention**
Cancer Prevention and Control
National Breast and Cervical Cancer Prevention
[Breast and Cervical Cancer Resource Materials and Publications](http://www.cdc.gov/cancer/nbccedp/resourcematerials.htm#pubed)
<http://www.cdc.gov/cancer/nbccedp/resourcematerials.htm#pubed>

The site has links to resources for consumers, public health professionals, and physicians, as well as scientific and general resources.

- **[Cancer Control PLANET](http://cancercontrolplanet.cancer.gov/index.html)**
<http://cancercontrolplanet.cancer.gov/index.html>

The PLANET portal provides access to data and resources that can help planners, program staff, and researchers to design, implement and evaluate evidence-based cancer control programs.

- **Department of Health and Human Services**
[Breast Cancer Information](http://www.hhs.gov/breastcancer/)
<http://www.hhs.gov/breastcancer/>

This website links to all federal resources and information regarding breast cancer.

- **National Cancer Institute**
[Cancer Information Service](http://cis.nci.nih.gov/)
<http://cis.nci.nih.gov/>

The National Cancer Institute's (NCI's) Cancer Information Service (CIS) is a national information and education network. The CIS is a free public service of the NCI, the Nation's primary agency for cancer research.

- **Women in Government**
[Challenge to Eliminate Cervical Cancer Campaign](http://www.womeningovernment.org/prevention/)
<http://www.womeningovernment.org/prevention/>

Women In Government is a national 501(c)(3), non-profit, bi-partisan organization of women state legislators providing leadership opportunities, networking, expert forums, and educational resources to address and resolve complex public policy issues. *Women In Government* has made the elimination of cervical cancer one of the organization's top priorities.

Continuing Education and Training

- **Centers for Disease Control and Prevention**
 Cancer Prevention and Control
National Breast and Cervical Cancer Prevention
[Workplans: A Program Management Tool](http://www.cdc.gov/cancer/nbccedp/training/workplans/)
<http://www.cdc.gov/cancer/nbccedp/training/workplans/>

Workplans: A Program Management Tool is a web-based training course designed to guide participants through the process of developing a workplan. This course is based on *Workplans: A Program Management Tool-Education and Training Packet*, 2000, created by CDC's Cancer Prevention and Control Program.

- **Centers for Disease Control and Prevention**
Public Health Training Network
Webcast: [HPV and Cervical Cancer: An Update on Prevention Strategies](http://www.phppo.cdc.gov/phtn/HPV-05/default.asp)
<http://www.phppo.cdc.gov/phtn/HPV-05/default.asp>

This webcast will provide viewers with information on cervical cancer screening guidelines and strategies for preventing genital HPV infection, including appropriate patient counseling messages. Continuing Education will be available by registering and completing an evaluation at www.phppo.cdc.gov/phtnonline. The origination date of this webcast was August 9, 2005. Continuing education credits will be offered for various professions based on 1 hour of instruction. CE registration will be available **through August 9, 2006**.

Funding Opportunities

- **Susan G. Komen Breast Cancer Foundation**
[Community-Based Grant Resources](http://www.komen.org/intradoc-cgi/idc.cgi_isapi.dll?IdcService=SS_GET_PAGE&nodeId=369)
http://www.komen.org/intradoc-cgi/idc.cgi_isapi.dll?IdcService=SS_GET_PAGE&nodeId=369

In addition to research grants, Komen Affiliates fund non-duplicative, community-based breast cancer screening, treatment and education programs (STEP) for the medically underserved. In

2004, Affiliates awarded more than 1,235 grants totaling more than \$41.1 million for STEP. In addition to research grants, Komen Affiliates fund non-duplicative, community-based breast cancer screening, treatment and education programs (STEP) for the medically underserved. In 2004, Affiliates awarded more than 1,235 grants totaling more than \$41.1 million for STEP.

- **National Association of County and City Health Officials (NACCHO)**

- [Foundation Funding Guide](#)

- <http://www.naccho.org/topics/fundingguide/index.cfm#FoundationFundingGuide>

NACCHO works with The Foundation Center to identify public health-related funding resources at the national and state levels from private foundations. Each month, we highlight one area of public health. The following links access archived publications of the Foundation Funding Guide which may identify funding that may be used for breast and cervical cancer prevention efforts.
