Exercise Design Class

- 2011 Class date -
 - **August 15,16,17**
- Three-days
- Hands-on, activity-based training
- Designed to prepare participants to be the in-house disaster exercise design expert for their facility
- Modeled on the DHS/FEMA 3-week disaster exercise design course for emergency management and first responders and incorporates components of the HSEEP training.
 - Have trained 96 people in Nebraska to date

How we can help

- Exercise assistance
 - Seminars
 - Workshops
 - Tabletops
 - Drills
 - Functional Exercise
 - Full Scale Exercise

What we need from you

- Exercise Request Form
- Rough objectives (at the very least)
- Copies of the plans you want to test
- Enough time to plan
- Enough time to conduct a useful exercise

Please

It's that easy!

- We will provide
 - All exercise materials needed
 - All facilitators for the exercise
 - Evaluators for the exercise (as many as possible)
 - After Action Report (HSEEP Compliant)

- Funding for the exercise is provided through a grant from Nebraska Health & Human Services System so there is **NO COST TO YOU**
