

**Table 6: The feto-infant mortality number and rate, and the number and rates for the four Perinatal Periods of Risk components for the non-Hispanic white population, 20 years of age or older, at least 13 years of education, US urban Counties and Cities with over 250,000 population by State, 1998-2000.**  
 Geographic areas included have no major reporting problems as indicated by tables 1.C and 1.D.  
 Excluded are also areas with less than 60 overall PPOR deaths and/or less than 10 deaths in a single PPOR category.
