

EDUCATIONAL SUPPORT GRANT APPLICATIONS: DUE FEBRUARY 29, 2012

Educational Support Grants are made available to College of Medicine faculty to encourage advancements in health professions education. Grants are awarded to faculty to support the implementation of innovative educational programs or for the purchase of educational technology. Grants are for a one-year period and are selected on the basis of benefit to students in a degree program, the faculty member, and the College of Medicine.

Grant Guidelines

Eligibility: Any COM/SAHP faculty member who is involved in the teaching of students.

Frequency: No more than one grant is awarded to any individual in a two-year span.

Amount: Up to \$5000 per grant is available.

Application: A one to two page application is required (see requirements below)

Selection process: Applications will be reviewed by the Educational Support Grant Committee which will make recommendations to the Dean for final approval.

Application deadline – February 29, 2012

Applications should be approximately two pages long (plus any supporting documents) and must be submitted electronically (via email).

Applicant's name, department, position, and educational credentials (i.e. involvement in education, not a comprehensive CV)

Description of the proposed project

Examples of past grants that have been awarded: purchase of simulators, development of a scoring rubric for on-line patient cases, purchase of an audience response system, participation in educational seminars, educational research, purchase of digital images used for instruction, etc.

Staff or faculty salary support is not available through Educational Support Grants. Grant funds may be used to pay part-time, temporary workers, such as students who are contracted exclusively for this project.

Amount requested, with an itemized budget (include a quote or catalogs for equipment purchases)

A description of the measures of success for the project

A description of the benefit to students, to the applicant, and to the College of Medicine, including an estimate of the number of students who will be impacted by the project

At the end of the grant cycle, in April 2013, a summary letter to the Dean will be required.

If you have questions please contact Dr. Hugh Stoddard at hstoddard@unmc.edu

Electronic applications should be sent to: hstoddard@unmc.edu
