ASCP Board of Registry

CMC

Certification Maintenance Program
The ASCP Board of Registry has long been concerned with improving the initial certification process and assuring the continued competence of medical laboratory personnel. Increasingly, oversight agencies are being challenged to provide assurance to the public that the health professions meet minimal levels of competence throughout their careers. Because the Board of Registry has long held the belief that individuals should maintain and document their competence, a new certification maintenance program has recently been developed.

The Certification Maintenance Program, currently required for individuals newly certified in 2004 in the entry level categories, is also now available to individuals who were certified prior to 2004 on a voluntary basis. Current certificants will be able to demonstrate their competency by participating in this program and receiving a new certificate every three years. Individuals who successfully complete the program will receive a certificate valid for three years as well as the designation “CM” in superscript after their certification designation [e.g., MT(ASCP)CM]. The goal of the program is to demonstrate to the public that laboratory professionals with this new designation are performing activities to stay current in their practice.

All requirements and fees stated in this program are subject to change without notice.

Individuals newly certified beginning January 2004 in the entry-level categories will be required to participate in the BOR Certification Maintenance Program in order to maintain their certification status. The certification categories requiring CMP are indicated below.

- Apheresis Technician [AT]
- Cytotechnologist [CT]
- Donor Phlebotomy Technician [DPT]
- Histotechnician [HT]
- Histotechnologist [HTL]
- Medical Laboratory Technician [MLT]
- Medical Technologist [MT]
- Phlebotomy Technician [PBT]
- Technologist in Blood Banking [BB]
- Technologist in Chemistry [C]
- Technologist in Hematology [H]
- Technologist in Microbiology [M]
- Technologist in Molecular Pathology [MP]

To successfully complete the program, documented activities demonstrating continued competence must be completed within a three-year period. For individuals certified beginning in January 2004, the certificate is time limited and expires after a three-year period. The Certification Maintenance Program (CMP) as described in this booklet, must be completed every three years to maintain certification. A self-assessment form is provided in this booklet to assist you in planning your activities over the next several years.

**Point Allocation**

Activities are awarded points based on the Guidelines on page 4. Thirty-six (36) points of documented continued competence activities must be completed every three years for all categories of certification except Phlebotomy Technician (PBT). For PBT, 9 points are required every three years.

For MT and MLT, the following points must be accumulated during the three year period following certification:

- 2 points minimum in each of the following domains: blood banking, chemistry, hematology, immunology, microbiology
- 1 point minimum in safety
- Remaining points in the area(s) of laboratory specialty, management, education or other related laboratory areas of interest

For other technicians and technologists (PBT, AT, DPT, HT, HTL, CT, BB, C, H, M, MP), the following points are required within the three year period:

- 1 point minimum in safety
- 2 points minimum in the area in which you are certified
- Remaining points in the area of specialty, management, education or other related laboratory areas of interest

Please retain copies of all certificates of attendance or any other type of documentation in this folder for auditing purposes. (See pages 11 and 12.)

If you are certified in more than one category after January 1, 2004, you will be required to complete the CMP for each category in which you became certified in 2004 or beyond to demonstrate maintenance of competence. However, you may use the same activities for more than one category of certification. For example, the same activity (worth 1 point) in laboratory safety may be used for both MT and C.

**Declaration of Certification Maintenance**

A declaration is enclosed in this packet. After you have completed the necessary continuing competence activities, this declaration form should be completed in its entirety.
and submitted to the Board of Registry office along with the required fee. The current fee is $50. Please check the BOR website at www.ascp.org/bor for the most current fee before submitting your declaration. Detailed information is provided on page 11.

**Failure to Participate in CMP**
If you are certified beginning in 2004 and choose not to participate in the Certification Maintenance Program, your certificate will no longer be valid after the three year time period printed on the certificate. You will no longer be permitted to use the (ASCP) certification designation after your name. Information on reinstatement is located on page 13.

**Renewal and Deadline Dates**
You will be required to complete all continuing competence activities within the three-year validation period indicated on your certificate. Activities may not be carried over from one period to the next. For example, if your validation dates are February 1, 2004 through January 31, 2007, you will need to complete your continuing competence activities between those dates. Activities before and after these dates will not be accepted.

The completed declaration should be submitted at least **two months prior** to the ending validation date on your certificate (e.g., by November 30, 2006 for the ending validation date of January 31, 2007) to ensure that you receive your new certificate prior to the expiration date on your current certificate.

**Documentation for Audit**
A percentage of declarations will be audited to verify completion of the program. If your declaration is selected for audit, you will be notified and required to submit documentation verifying all activities that were submitted for the program. (See Audit Procedures on page 12 for further information.)

**Successful Program Completion**
Upon successful completion of the program, you will receive a new certificate valid for three years and a CMP packet for the next time period. The designation “CM”, as a superscript, may be used after your initials to indicate that you have successfully maintained your certification [e.g., MT(ASCP)CM].

**Certified 2004 and Beyond**
If you are certified beginning in 2004, you are required to complete the Certification Maintenance Program every three years for your certification to remain valid. You will receive a new certificate after successful completion of the program every three years. You will be entitled to use the initials “CM” in superscript after your certification initials [e.g., MT(ASCP)] for the period your new certification is valid. This original certificate is verification of your certification and may be presented to employers, state licensing boards, etc as proof of your valid ASCP certification. Copies of certificates are not valid for proof of certification.

If you choose not to participate in the Program, you will not be permitted to use the certification initials after your name [e.g., MT(ASCP)CM] when your certificate expires since your certification is no longer valid.

**Certified Prior to 2004**
Upon successful completion of the program, you may use the initials “CM” in superscript, after your certification initials [e.g., MT(ASCP)CM] for the period your new certificate is valid. If you choose not to continue your participation in the program, you may no longer use the superscript “CM” after your certification initials. However, you will still continue to use your certification initials and your original certification remains valid, since this is a voluntary program for those certified prior to 2004.
**PBT**—minimum of 9 points within the 3-year period

All other categories—minimum of 36 points within the 3-year period

**For generalists (MT & MLT)**—2 points minimum required in each domain (blood banking, chemistry, hematology, immunology, microbiology), 1 point minimum in safety and remaining points in area(s) of laboratory specialty, management, education, and/or other related laboratory area(s) of interest.

**For categorical technicians and technologists (PBT, AT, DPT, HT, HTL, CT, BB, C, H, M, MP)**—1 point minimum in safety; 2 points minimum in the area in which you are certified; remaining in area of specialty, management, education and/or other related laboratory areas of interest.

* Activities must be related to area of specialty and safety as indicated.

** ACCME (Accreditation Council for Continuing Medical Education), ASCP CMLE (American Society for Clinical Pathology–Continuing Medical Laboratory Education), AACC ACCENT (American Association for Clinical Chemistry–ACCENT programs), ASCLS PACE (American Society of Clinical Laboratory Science–PACE programs)

PLEASE NOTE: Because of the large volume of continuing education programs available, the Board of Registry will not respond to requests for approval of individual programs. If the program meets the criteria as described above, it will be accepted for CMP points.
The chart on page 4 outlines the number of points required to complete the Certification Maintenance Program and the activities for which points are awarded.

1. Formal continuing education courses—These courses may be completed through the programs/organizations listed on the chart as well as through other professional societies such as those listed under Suggested List of Providers on page 6. Courses offered by state/regional/local societies and chapters are acceptable as well as courses offered through the continuing education departments of colleges and universities. Courses offered by organizations approved by state licensing boards are also acceptable.

Please Note: Because of the large volume of continuing education courses available, the Board or Registry will not respond to requests for approval of individual programs or courses. If the program/course meets the criteria listed, it will be accepted for CMP points.

2. Employer-offered coursework—Programs, workshops, and in-services offered through your employer or sponsored by a vendor will all qualify for the CMP.

3. College/university coursework—Courses in the natural sciences, computer sciences, management, education or other courses relevant to your laboratory career or current area of practice are all acceptable.

4. Teleconference, subscription, or online self-instructional courses—These courses are acceptable based on any of the following criteria:
   a. ACCME, CMLE, ACCENT, PACE credits are awarded OR
   b. They are offered by a professional society (including state, regional or local chapter) OR
   c. The course is accepted by a state licensing board OR
   d. The course is offered through a university or college.

Please Note: Because of the large volume of continuing education courses available, the Board or Registry will not respond to requests for approval of individual programs or courses. If the program/course meets the criteria listed, it will be accepted for CMP points.

5. Completion of advanced ASCP certification or qualification—Achievement of a Specialist or Diplomate certification in the following categories is acceptable for 25 CMP points: Hemapheresis Practitioner (HP), Specialists in Blood Banking (SBB), Chemistry (SC), Cytotechnology (SCT), Hematology (SH), Laboratory Safety (SLS), Microbiology (SM), Virology (SV) and Diplomate in Laboratory Management (DLM)

Categorical certification or higher level certification [e.g., Histotechnologist (HTL) for Histotechnician (HT)] is acceptable for 12 CMP points: Histotechnologist (HTL), Technologists in Blood Banking (BB), Chemistry (C), Hematology (H), Microbiology (M) and Molecular Pathology (MP).

Qualifications are also worth 12 CMP points: Qualifications in Cytometry (QCYM), Immunohistochemistry (QIHC), Laboratory Compliance (QLC), Laboratory Informatics (QLI) and Point of Care Testing Evaluator (QPOCTE).

6. Competence assessment by employer—You may receive up to 2 CMP points per year for completion of an employer assessment form. Your employer must complete the enclosed competence assessment form to document your continued competency in the area(s) of your employment. The date of the assessment must be included on this form.

7. Research and preparation for presenting a workshop or course—You may receive 3 CMP points for each contact hour of a presentation/workshop you prepare and
deliver for the first time only. Subsequent presentations of the same workshop are not awarded any points.

8. Authoring journal articles for peer-reviewed publications—Points are awarded for writing articles in peer-reviewed journals in the laboratory field or in journals for professional associations in the areas of education and management.

9./10. Authoring a book/chapter or editing a book—See guidelines on page 4 for points awarded.

11./12. Doctoral dissertation or masters thesis—See guidelines on page 4 for points awarded.

13. Presenting a poster or exhibit—Points are awarded for posters or exhibits presented at national, state, regional or local laboratory professional association meetings.

14./15. Serving on examination Committees or other Committees/boards related to the profession including national, regional, state, local professional organizations or committee appointments at your place of employment—See guidelines on page 4 for points awarded.

16. Lab inspector for JCAHO/CAP/AABB/ COLA/ state agency or On-site inspector for NAACLS/CAAHEP—See guidelines on page 4.

Below is a partial list of providers who offer continuing education activities including workshops, teleconferences, subscription programs, online courses, etc.

This list is only a partial list to assist you in planning your activities.

State/regional/local professional societies and other organizations recognized by state licensing boards may not be represented on this list; however, courses provided by these groups are acceptable for CMP points.

Please Note: Because of the large volume of continuing education programs available, the Board of Registry will not respond to requests for approval of individual programs. If the program meets the criteria described under Guidelines for Earning CMP Points, it will be acceptable for CMP Points.

- AABB—American Association of Blood Banks
- AACC “ACCENT”—American Association for Clinical Chemistry
- AMA—American Medical Association
- AMT—American Medical Technologists
- ASCLS PACE—American Society of Clinical Laboratory Science
- ASC—American Society of Cytopathology
- ASCP CMLE—American Society for Clinical Pathology
- ASCT—American Society for Cytotechnology
- ASFA—American Society for Apheresis
- ASH—American Society of Hematology
- ASM—American Society of Microbiology
- CACMLE—Colorado Association for Continuing Medical Laboratory Education
- CAP—College of American Pathologists
- CLMA—Clinical Laboratory Management Association
- CMEA—Continuing Medical Education Association
- CSMLS—Canadian Society for Medical Laboratory Science
- Excell
- JCAHO—Joint Commission on the Accreditation of Healthcare Organizations
- NSH—National Society for Histotechnology
- The American Red Cross
As a first step in the Certification Maintenance Program, this self-assessment form is designed to assist you in setting your goals and determining the appropriate activities to meet those goals and successfully complete this program. To help you determine your professional direction and identify your learning needs, complete the following questions.

1. My current responsibilities are:
   (e.g., management, teaching students blood banking, etc.)

2. Areas of professional interest to me:
   (e.g., teaching, management, laboratory compliance, etc.)
3. The areas of my profession that I enjoy:
   (e.g., personal interests related to professional growth, etc.)

4. My professional strengths are:
   (May be based on feedback from peers, performance evaluations, self-assessment modules, etc.)

5. I would like to improve my knowledge in the areas of:
6. External factors or trends (professional, societal, or environmental) that are affecting or will affect my profession:

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

7. My Goals:
(When developing your goals, refer to Questions 1–6 on the previous pages.)

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________
### Activities to Meet My Goals:

<table>

<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Please keep in mind the following requirements:

**PBT**—minimum of 9 points within the 3-year period
All other categories—minimum of 36 points within the 3-year period

**For generalists (MT & MLT)**—2 points minimum required in each domain (blood banking, chemistry, hematology, immunology, microbiology), 1 point minimum in safety and remaining points in area(s) of laboratory specialty, management, education, and/or other related laboratory area(s) of interest.

**For categorical technicians and technologists (PBT, AT, DPT, HT, HTL, CT, BB, C, H, M, MP)**—1 point minimum in safety; 2 points minimum in the area in which you are certified; remaining in area of specialty, management, education and/or other related laboratory areas of interest.
The CMP points, required to complete the program, must be obtained within the three-year period specified on your certificate. Copies of certificates of participation, program syllabi, copies of publications or any other type of documentation of your continuing competence activities should be retained in this folder.

Declaration
When you have completed the required CMP points, complete the enclosed declaration form in its entirety, filling in all appropriate sections. If a section does not apply to you, indicate “N/A”. Sign and date the form and return it to the Board of Registry office in the enclosed envelope along with a check/money order for the current fee or credit card information. (Refer to the website at www.ascp.org/bor for current fee information.)

DO NOT INCLUDE the self-assessment form or any documentation of your continuing competence activities with this declaration form. This documentation will only be required if your declaration form is selected for auditing purposes.

The completed and signed declaration form should be submitted at least two (2) months prior to the ending validation date on your certificate. (e.g., January 30, 2007 for the ending validation date of March 31, 2007). This will ensure that your new certificate will arrive prior to the expiration of your current certificate. Please send your declaration form in the enclosed envelope to the following address:

ASCP Board of Registry
Dept. # 77-3335
Chicago, IL 60678-3335

If your declaration form is chosen for audit, you will be notified by mail. (See detailed information on the auditing procedures on page 12.)

Successful Completion of CMP
If your declaration form is accepted without audit, you will receive a new certificate valid for three years and a CMP packet for the next time period. The designation “CM”, as a superscript, may be used after your initials to indicate that you have successfully maintained your certification [e.g., MT(ASCP)CM].
To ensure the integrity of the Certification Maintenance Program, the ASCP Board of Registry will review and audit a percentage of declaration forms each year. If you are selected for audit, you will be notified by mail and requested to submit documentation of all activities submitted for the program.

**Required Documentation**
The following documents are required to verify your continuing competence activities:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Documentation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Formal continuing education courses, teleconferences, subscription or online courses where formal continuing education credits are awarded.</td>
<td>Certificate of Participation including: Name of Participant Name of Provider</td>
</tr>
<tr>
<td>Employer-offered courses, in-service programs, vendor-sponsored courses.</td>
<td>Letter/certificate/signed attendance from employer containing above information</td>
</tr>
<tr>
<td>Formal college/university coursework</td>
<td>Official Transcript</td>
</tr>
<tr>
<td>Competence assessment by employer</td>
<td>Employer assessment form completed by the employer documenting competence in particular laboratory specialty(ies) and date of assessment (form enclosed in folder)</td>
</tr>
<tr>
<td>Presentation of workshop or course</td>
<td>Copy of syllabus, program or letter from organization that indicates content, length of teaching time and name of the organization</td>
</tr>
<tr>
<td>Authoring a book or book chapter, doctoral dissertation</td>
<td>Title page of publication and table of contents containing author name</td>
</tr>
<tr>
<td>Editing a book</td>
<td>Copy of cover or inside page containing editor names</td>
</tr>
<tr>
<td>Presenting posters/exhibits</td>
<td>Abstract identifying poster session, meeting program or brochure identifying presentation</td>
</tr>
<tr>
<td>Journal articles, master thesis, doctoral dissertation</td>
<td>Copy of publication</td>
</tr>
<tr>
<td>Serving on examination committees, committees or boards related to the profession</td>
<td>Letter from organization verifying participation, in what capacity and dates of service</td>
</tr>
<tr>
<td>On-site inspections for NAACLS/CAAHEP accredited programs or laboratory inspections for CAP/JCAHO/AABB/COLA/state agency</td>
<td>Letter from organization (NAACLS, CAAHEP, JCAHO, CAP, etc.) verifying your role as an inspector and the dates of inspection</td>
</tr>
</tbody>
</table>
Submission Procedures
You will be requested to submit copies of the documents listed on page 12 for all of the continuing competence activities you completed to acquire the necessary CMP points. DO NOT SUBMIT original documents so that you will have the originals for backup in the event documents are lost in transit.

Successful Completion of CMP After Audit
Upon successful completion of the auditing process, you will receive a new certificate valid for three years and a CMP packet for the next time period. The designation "CM", as a superscript, may be used after your initials to indicate that you have successfully maintained your certification [e.g., MT(ASCP)CM].

Unsuccessful Audit
If your declaration is audited and you are unable to submit documentation of your continuing maintenance activities or you were unable to complete the required CMP points due to extenuating circumstances, you may submit a letter of appeal to the ASCP Board of Registry.

Appeals Procedure
To appeal an unsuccessful audit, you must submit a letter to the Board of Registry Board of Governors. This letter must describe in detail the reasons for your inability to complete the program and include documentation supporting your request.

Extenuating circumstances likely to be considered are serious, incapacitating illness over one year duration or military assignment overseas in a location with no access to online workshops of over one year's duration. Financial hardship and personal/family related responsibilities are not considered extenuating circumstances.

Your letter of appeal and all supporting documentation will be reviewed and you will be notified of the decision of the Board.

Inactive Status for Individuals Certified Beginning in 2004
If you wish to request inactive status for one year, you must submit a fee of $40 and documentation of extenuating circumstances for your request. To be reinstated after one year, you must submit a declaration and documentation of 36 points within the last three years and pay the fee for CMP.

At the end of one year, if you fail to participate and do not submit compelling reasons for continuing inactive status as described above under the Appeals Procedure, your certificate will no longer be valid and you may no longer use the (ASCP) certification designation after your name.

Reinstatement for Individuals Certified Beginning in 2004
If you allow your certificate to expire and then seek reinstatement, you must submit a declaration verifying completion of 36 points within the last three years. You must also pay a reinstatement fee of $50 plus the fee for CMP.

If your certificate is lapsed for ten (10) or more years, you will be required to retake and pass the certification examination for reinstatement of your certification.
Q: Is the Certification Maintenance Program required for all categories of certification?
A: The Certification Maintenance Program is currently only required for newly certified individuals in the following categories. (Note: If certified prior to 2004 CMP is not required):

- Apheresis Technician, AT
- Cytotechnologist, CT
- Donor Phlebotomy Technician, DPT
- Histotechnician, HT
- Histotechnologist, HTL
- Medical Laboratory Technician, MLT
- Medical Technologist, MT
- Phlebotomy Technician, PBT
- Technologist in Blood Banking, BB
- Technologist in Chemistry, C
- Technologist in Hematology, H
- Technologist in Microbiology, M
- Technologist in Molecular Pathology, MP

Individuals certified prior to January 2004 may participate in the program on a voluntary basis. Upon successful completion of the program, they will receive a new certificate valid for three years and may use the “CM” designation in superscript after their certification initials [e.g., MT(ASCP)CM].

Q: Please provide some clarification regarding the Certification Maintenance Program, ASCP membership, certification, and registration. Please explain to me the difference between certification, registration and ASCP membership?
A: Certification by the ASCP Board of Registry requires completion of the eligibility requirements and successful completion of the appropriate certification examination. Previously, certification did not have an expiration date. Individuals who become certified in 2004 and beyond will be required to maintain their certification through the Certification Maintenance Program (CMP) every three years.

ASCP membership is voluntary. ASCP offers two categories of membership (Registrant and Associate) for non-physician Board of Registry certified individuals. Certification and maintenance of certification are not contingent upon membership in ASCP.

Q: If one becomes certified but fails to complete or participate in the Certification Maintenance Program (CMP), what happens? Will ASCP certification be revoked?
A: Certifications issued effective 2004 will be valid for a three year period. If someone fails to participate, their certification will no longer be valid after the certification validation date indicated on their certificate. They may no longer use the certification initials [e.g., MT(ASCP)] after their name since their certification is no longer valid. Individuals certified prior to 2004 may continue to use the certification initials since this is a voluntary program for those certified prior to 2004; however, these individuals will no longer be able to use the “CM” designation.

Q: Will individuals be allowed to start the program before the assigned date?
A: Points accumulated toward meeting the CMP must be obtained between the years of certification validation. (e.g., if the certification validation period is January 2004 through January 2007, all points must be completed within this validation period of January 2004–January 2007). Thus, any points obtained before or after your certification validation period will not be acceptable and cannot be carried over to a later period.
Q: As a Laboratory Supervisor, I verify over the telephone the certification of my staff. Currently I am provided with their certification category and year of certification. What can I expect in terms of certification verification status for those who do not comply with the CMP who were certified beginning in 2004?

A: The Board of Registry will verify certification category and the certification validation period. An original certificate indicating validation dates is acceptable as verification of certification. Copies are not acceptable.

Q: Cytotechnologists in California must document 24 hours of approved CE every two years in order to maintain their California CT license. Will all California CT's also be required to document and submit the same hours to ASCP in order to maintain their ASCP CT certification?

A: Cytotechnologists certified in January 2004 and beyond will be required to complete 36 points of continued competency activities every three years. Activities accepted by the California State Licensure Board will be considered acceptable activities for the CMP.

Q: If I have further questions regarding this program, whom do I contact?

A: Contact the ASCP Board of Registry Office:
borcmp@ascp.org
Fax 312.738.5808
Phone 312.738.1336 x1139 or x1345
If you have any questions or need more information regarding the Certification Maintenance Program please email us at borcmp@ascp.org or visit our website at www.ascp.org/bor.
