Look for our future website at http://www.unmc.edu/mmi for current information and links related to movement problems, developmental disabilities, and children’s needs.
**Movement Matters at MMI Because ...**

**Our Mission**
is to assist children in developing movement for play, learning, and function.

**We Believe**
the family, child, and therapist should make goals for movement and plan how we will achieve them together.

**Movement Evaluation**
is done with state-of-the-art equipment, and tests to diagnose problems and show progress.

**Our Team Members**
in other areas of habilitation such as orthotics, seating, recreation, occupational therapy, speech and education are easily accessed.

**Expertise and Experience**
of our staff bring the best treatment to your child’s program including: NDT, gait training, TAMO, research, early intervention, adaptive equipment, transition, fitness training and more.

**Our Schedule**
is flexible to family needs, with after school hours and intensive therapy available to meet specific objectives.

**Treatment**
consists of individual programs tailored to the child’s capabilities and motivation.
