Starfish Aquatic Therapy Program provides children with special needs opportunities to explore movement, learning and play in the water.

Each class is led by a physical, occupational, and recreational therapist. Beginning swimming skills are incorporated with therapeutic techniques, sensory integration and social play to improve your child’s confidence with movement in the water.

Our program is open to children ages 2 to 4 with all types and degrees of developmental disabilities. Swimming may be contraindicated for some children. If you have concerns, please consult with your pediatrician.

A parent or caregiver is required to accompany each child. If you are unable to be in the water with your child, please contact us. We will try to pair your child with another adult.

Instructors:

- **Kelley Coutts, C.T.R.S., B.S.**
  Assistant Director of Recreational Therapy

- **Mindy Oetter, OTR/L**
  Occupational Therapist

- **Ann Kruger, PT**
